

Updating of Customer Information and Documents

Dear Valued Client,

In this time of uncertainty, we are always in search of providing you convenient means to do your banking transactions and to get in touch with you despite the challenges of physical distancing. However we need your help in order for us to reach you effectively.

May we invite you to approach any Branch Employee to assist in updating your customer information with us such as mobile number and email address. This is also in relation to the Bank's requirement of updating customer information every two (2) years for Savings Account and annually for Checking Account.

Please bring the following when you update your information:

- ✓ One (1) Government issued valid ID

Plus supporting document/s for:

- ✓ Change in Address
- ✓ Change in Marital Status
- ✓ Change in Citizenship

Thank you!

Always stay safe and healthy!
